

Each MindTap course comes with a selection of apps to encourage interactivity, engagement, personalization, and more.

Assignments

Aplia
Aplia significantly improves outcomes and elevates thinking by increasing student effort and engagement.

CengageNOW
With its engaging learning and assessment tools, CengageNOW supports the entire student workflow, from motivation to mastery.

Enhanced WebAssign®
Enhanced WebAssign® helps students learn math and science, not just do homework.

InSite
InSite from Cengage Learning is a fully integrated, productivity-enhancing classroom solution that delivers an all-in-one perspective on your students' work.

SAM
SAM trains and tests essential Microsoft Office and computer concepts skills.

Write Experience
By evaluating writing based on voice, style, originality and more, Write Experience helps improve student communication skills.

*Different assignment apps are available for different courses. To learn about your particular course area, check with your Cengage Learning Consultant.

Study Tools

Flashcards
A classic learning tool digitally reimagined, flashcards detect the chapter a student last opened, then shows cards for that chapter.

Merriam-Webster
Merriam-Webster dictionary content enriches the learning experience while improving users' understanding of the English language.

NetTutor®
NetTutor® is staffed with U.S.-based tutors and facilitated by a proprietary whiteboard created for online collaboration in education.

Notebook
Integrating Evernote technology, this app aggregates student annotations and notes into a single consolidated view.

ReadSpeaker
Text-to-speech technology offers varied reading styles and the option to synchronize highlighted text to reinforce understanding.

Sharing and Collaboration

Google Docs
Instructors and students share dynamically updated text documents, spreadsheets, presentations, and PDFs.

Inline RSS Feed
Send timely, valid feeds to students – within the Learning Path or as separate reading – with the option to add accompanying remarks.

Kaltura
Simple video, audio and image uploading tools open a wealth of instructional, testing, and engagement opportunities.

WebVideo
Easily incorporate YouTube videos as a separate viewing activity within the Learning Path or directly within a reading assignment.

YouSeeU
Select MindTap courses include this app that lets students record, share, and comment on video to better engage in discussions, assignments, and more.

ConnectYard
This lively MindApp social media platform fosters communication and collaboration among students and teachers without the need to “friend,” “follow,” or join a social network – meaning that privacy is always maintained.
