

The National Geographic Science Experience Continues for the Spanish and Dual Language Classroom

- Immerse Students in the Nature of Science and Inquiry
- Unlock the Big Ideas in Science for All Learners
- Build Scientific and Content Literacy
- Address STEM Inquiry

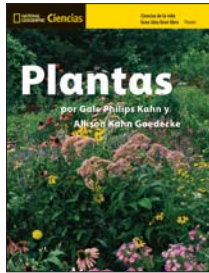

Spanish Components

Grades K–2: Modular Life, Earth, and Physical Science units at the primary grades allow you to engage students in a wealth of active discovery and shared exploration.

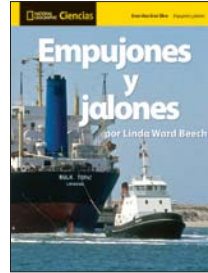

Grades 3–5: The program then grows with your students by transitioning to grade-level sets of Life, Earth, and Physical Science Student Books. All student books and Teacher’s Editions are available in print or as eBooks.

The following K–5 components are available in Spanish:

Big Ideas Student Books
(Example Titles)

Grade K, Life Science

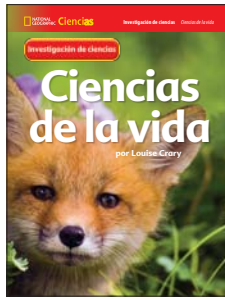

Grade 1–2, Physical Science
