

People in different places get to school in different ways.

Some areas have lots of roads. Children in these areas often go to school by car, like these students in Mexico.

Another way children in these areas can get to school is by bus, like these students in the United States.

United States

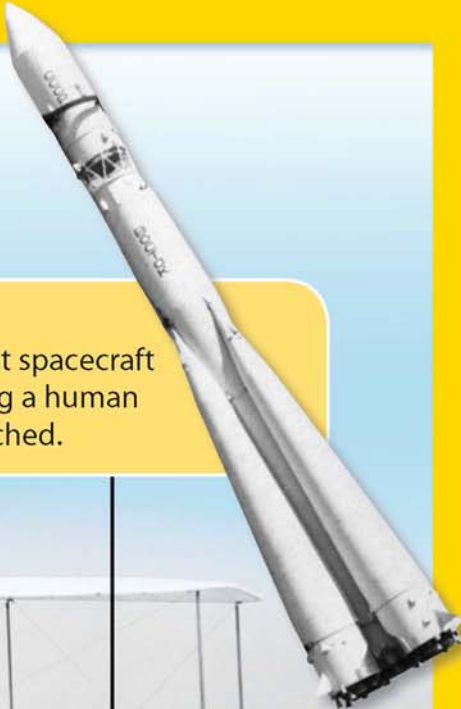

# Facts About Transport

The ways people travel have changed through time. A long time ago, people only travelled on animals like horses or camels, but in the late 1800s and 1900s, many new types of transport were invented. This timeline shows a few of them.

**1961**  
The first spacecraft carrying a human is launched.

**1903**  
The Wright Brothers fly their first aeroplane.

1900 1910 1920 1930 1940 1950 1960 1970

**1908**  
Ford makes the first popular car.
