ABOUT THE AUTHORS

Rob Jenkins

I love teaching. I love to see the expressions on my students' faces when the light goes on and their eyes show such sincere joy of learning. I knew the first time I stepped into an ESL classroom that this is where I needed to be and I have never questioned that resolution. I have worked in business, sales, and publishing, and I've found challenge in all, but nothing can compare to the satisfaction of reaching people in such a personal way.

Staci Johnson

Ever since I can remember, I've been fascinated with other cultures and languages. I love to travel and every place I go, the first thing I want to do is meet the people, learn their language, and understand their culture. Becoming an ESL teacher was a perfect way to turn what I love to do into my profession. There's nothing more incredible than the exchange of teaching and learning from one another that goes on in an ESL classroom. And there's nothing more rewarding than helping a student succeed.

Along with the inclusion of National Geographic content, the third edition of **Stand Out** boasts of several innovations. In response to initiatives regarding the development of more complexity with reading and encouraging students to interact more with reading texts, we are proud to introduce new rich reading sections that allow students to discuss topics relevant to a global society. We have also introduced new National Geographic videos that complement the life-skill videos **Stand Out** introduced in the second edition and which are now integrated into the student books. We don't stop there; **Stand Out** has even more activities that require critical and creative thinking that serve to maximize learning and prepare students for the future. The third edition also has online workbooks. **Stand Out** was the first mainstream ESL textbook for adults to introduce a lesson plan format, hundreds of customizable worksheets, and project-based instruction. The third edition expands on these features in its mission to provide rich learning opportunities that can be exploited in different ways. We believe that with the innovative approach that made **Stand Out** a leader from its inception, the many new features, and the new look; programs, teachers, and students will find great success!

Stand Out Mission Statement:

Our goal is to give students challenging opportunities to be successful in their language learning experience so they develop confidence and become independent lifelong learners.

TO THE TEACHER

ABOUT THE SERIES

The **Stand Out** series is designed to facilitate *active* learning within life-skill settings that lead students to career and academic pathways. Each student book and its supplemental components in the six-level series expose students to competency areas most useful and essential for newcomers with careful treatment of level appropriate but challenging materials. Students grow academically by developing essential literacy and critical thinking skills that will help them find personal success in a changing and dynamic world.

THE STAND OUT PHILOSOPHY

Integrated Skills

In each of the five lessons of every unit, skills are introduced as they might be in real language use. They are in context and not separated into different sections of the unit. We believe that for real communication to occur, the classroom should mirror real-life as much as possible.

Objective Driven Activities

Every lesson in **Stand Out** is driven by a performance objective. These objectives have been carefully selected to ensure they are measurable, accessible to students at their particular level, and relevant to students and their lives. Good objectives lead to effective learning. Effective objectives also lead to appropriate self, student, and program assessment which is increasingly required by state and federal mandates.

Lesson Plan Sequencing

Stand Out follows an established sequence of activities that provides students with the tools they need to have in order to practice and apply the skills required in the objective. A pioneer in Adult Education for introducing the Madeline Hunter WIPPEA lesson plan model into textbooks, **Stand Out** continues to provide a clear and easy-to-follow system for presenting and developing English language skills. The WIPPEA model follows six steps:

- Warm up and Review
- Introduction
- Presentation
- Practice
- Evaluation
- Application

Learning And Acquisition

In **Stand Out**, the recycling of skills is emphasized. Students must learn and practice the same skills multiple times in various contexts to actually acquire them. Practicing a skill one time is rarely sufficient for acquisition and rarely addresses diverse student needs and learning styles.

Critical Thinking

Critical thinking has been defined in various ways and sometimes so broadly that any activity could be classified to meet the criteria. To be clear and to draw attention to the strong critical thinking activities in **Stand Out**, we define these activities as **tasks that require learners to think deeper than the superficial vocabulary and meaning**. Activities such as ranking, making predictions, analyzing, or solving problems, demand that students think beyond the surface. Critical thinking is highlighted throughout so the instructor can be confident that effective learning is going on.

Learner-Centered, Cooperative, and Communicative Activities

Stand Out provides ample opportunities for students to develop interpersonal skills and to practice new vocabulary through graphic organizers and charts like VENN diagrams, graphs, classifying charts, and mind maps. The lesson planners provide learner-centered approaches in every lesson. Students are asked to rank items, make decisions, and negotiate amongst other things.

Dialogues are used to prepare students for these activities in the low levels and fewer dialogues are used at the higher levels where students have already acquired the vocabulary and rudimentary conversation skills.

Activities should provide opportunities for students to speak in near authentic settings so they have confidence to perform outside the classroom. This does not mean that dialogues and other mechanical activities are not used to prepare students for cooperative activities, but these mechanical activities do not foster conversation. They merely provide the first tools students need to go beyond mimicry.

Assessment

Instructors and students should have a clear understanding of what is being taught and what is expected. In **Stand Out**, objectives are clearly stated so that target skills can be effectively assessed throughout.

Formative assessments are essential. Pre and post-assessments can be given for units or sections of the book through *ExamView*—a program that makes developing tests easy and effective. These tests can be created to appear like standardized tests, which are important for funding and to help students prepare.

Finally, *learner logs* allow students to self-assess, document progress, and identify areas that might require additional attention.

SUPPLEMENTAL COMPONENTS

The **Stand Out** series is a comprehensive one-stop for all student needs. There is no need to look any further than the resources offered.

Stand Out Lesson Planners

The lesson planners go beyond merely describing activities in the student book by providing teacher support, ideas, and guidance for the entire class period.

- **Standards correlations** for **CCRS**, **CASAS**, and **SCANS** are identified for each lesson.
- **Pacing Guides** help with planning by giving instructors suggested durations for each activity and a selection of activities for different class lengths.
- **Teacher Tips** provide point-of-use pedagogical comments and best practices.
- **At-A-Glance Lesson Openers** provide the instructor with everything that will be taught in a particular lesson. Elements include, the agenda, the goal, grammar, pronunciation, academic strategies, critical thinking elements, correlations to standards, and resources.
- **Suggested Activities** go beyond what is shown in the text providing teachers with ideas that will stimulate them to come up with their own.
- **Listening Scripts** are integrated into the unit pages for easy access.

Stand Out Workbook

The workbook in the third edition takes the popular **Stand Out Grammar Challenge** and expands it to include vocabulary building, life-skill development, and grammar practice associated directly with each lesson in the student book.

Stand Out Online Workbook

One of the most important innovations new to the third edition of **Stand Out** is the online workbook. This workbook provides unique activities that are closely related to the student book and gives students opportunities to have access to audio and video.

The online workbook provides opportunities for students to practice and improve digital literacy skills essential for 21st century learners. These skills are essential for standardized computer and online testing. Scores in these tests will improve when students can concentrate on the content and not so much on the technology.

Activity Bank

The Activity Bank is an online feature that provides several hundred multilevel worksheets per level to enhance the already rich materials available through **Stand Out**.

DVD Program

The **Stand Out Lifeskills Video Program** continues to be available with eight episodes per level; however, now the worksheets are part of the student books with additional help in the lesson planners.

New to the third edition of **Stand Out** are two National Geographic videos per level. Each video is accompanied by four pages of instruction and activities with support in the lesson planners.

Examview

ExamView is a program that provides customizable test banks and allows instructors to make lesson, unit, and program tests quickly.

STANDARDS AND CORRELATIONS

Stand Out is the pioneer in establishing a foundation of standards within each unit and through every objective. The standards movement in the United States is as dominant today as it was when **Stand Out** was first published. Schools and programs must be aware of on-going local and federal initiatives and make attempts to meet ever-changing requirements.

In the first edition of **Stand Out**, we identified direct correlations to SCANS, EFF, and CASAS standards. *The Secretaries Commission on Achieving Necessary Skills* or SCANS and *Equipped for the Future* or EFF standards are still important and are identified in every lesson of **Stand Out**. These skills include the basic skills, interpersonal skills, and problem-solving skills necessary to be successful in the workplace, in school, and in the community. **Stand Out** was also developed with a thorough understanding of objectives established by the *Comprehensive Adult Student Assessment Systems* or CASAS. Many programs have experienced great success with their CASAS scores using **Stand Out**, and these objectives continue to be reflected in the third edition.

Today, a new emphasis on critical thinking and complexity has swept the nation. Students are expected to think for themselves more now than ever before. They must also interact with reading texts at a higher level. These new standards and expectations are highly visible in the third edition and include *College and Career Readiness Standards*.

Stand Out offers a complete set of correlations online for all standards to demonstrate how closely we align with state and federal guidelines.

IMPORTANT INNOVATIONS TO THE THIRD EDITION

New Look

Although the third edition of **Stand Out** boasts of the same lesson plan format and task-based activities that made it one of the most popular books in adult

education, it now has an updated look with the addition of the National Geographic content which will capture the attention of the instructor and every student.

Critical Thinking

With the advent of new federal and state initiatives, teachers need to be confident that students will use critical thinking skills when learning. This has always been a goal in **Stand Out**, but now those opportunities are highlighted in each lesson.

College And Career Readiness Skills

These skills are also identified by critical thinking strategies and academic-related activities which are found throughout **Stand Out**. New to the third edition is a special reading section in each unit that challenges students and encourages them to develop reading strategies within a rich National Geographic environment.

Stand Out Workbook

The print workbook is now more extensive and complete with vocabulary, life skills, and grammar activities to round out any program. Many instructors might find these pages ideal for homework, but they of course can be used for additional practice within the classroom.

Media And Online Support

Media and online support includes audio, video, online workbooks, presentation tools, and multi-level worksheets, ExamView, and standards correlations.

READING CHALLENGE

EXPLORER KIRA SALAK

The Real-Life Tomb Raider

“When someone tells me that I can’t do something, it just empowers me all the more.”
—Kira Salak

B. What do you think these words mean? Work with a partner.

adventurer	continent	document (v)	doubt
empower	escape	exotic	kayak (v)
kidnap	resolve	superficial	terrifying

C. Read about Kira Salak.

Kira Salak is an adventurer. She was the first known person to kayak down the Niger River in West Africa by herself. Kira is a traveler. She has traveled alone to almost every continent. Kira is a writer. She documents her travels by writing about the people she has met and the places she has seen. How did she become all of these things?

Kira wrote her first short story at the age of six. Her imagination always took her to wild and exotic places. At age 19, she took her first solo trip, hoping to have new and unique experiences. At age 20, while backpacking through Africa, she was kidnapped by soldiers and forced to “make a terrifying escape.” But this experience didn’t stop her. In fact, since then, she has purposely traveled to more dangerous countries so she can tell the world about the people who live there.

Kira’s experiences empower her. Even though she has seen some terrible things, she is still hopeful. Her goal is to find common ground with other people. “When you get beyond politics and superficial cultural differences, people all want the same things: peace, happiness, success for their children, and the best standard of life.” Kira is a writer, a traveler, and an adventurer. But above all else, she is a human being. “When someone tells me I can’t do something, it just empowers me all the more. People’s doubts in my ability only strengthen my resolve. When they say I can’t accomplish a challenge, I just eat that up.”

D. SUPPORT Underline the answers to the questions below in the reading. Write the question number next to the evidence.

- How do we know that Kira wanted to travel from a young age?
- When did she first travel alone?
- What empowers Kira?
- Where was she kidnapped?

E. SUMMARIZE Without looking at the reading, tell your partner about Kira’s goal, an obstacle, and a solution.
