Presentation

The main verb in a sentence is sometimes followed by a second verb. This verb can be the *-ing* form or the infinitive form. The choice depends on the main verb.

verb + *-ing* form

Certain verbs are always followed by the *-ing* form:

*I keep **using** it in conversation for the rest of the day.*

Common verbs only followed by the *-ing* form: *consider, dislike, enjoy, finish, imagine, involve, keep, mind, postpone, practise, suggest*

verb + *to*-infinitive

Certain verbs are always followed by the *to*-infinitive form:

*I want **to read** it again later.*

Common verbs followed by *to*-infinitive: *agree, decide, expect, hope, learn, manage, need, offer, plan, promise, seem, want*

verb + *-ing* form and *to*-infinitive

You can follow verbs such as *begin, continue, hate, like, love, prefer, start* with either form with no difference in meaning:

I like writing sentences. ✓ I like to draw pictures. ✓

verb + preposition + *-ing* form

When a preposition follows the first verb, the next verb uses the *-ing* form:

*Which of these techniques do you use for **learning** new words in English?*

*I learn by **hearing** the new word.*

Common verbs followed by a preposition + the *-ing* form: *apologize for, learn by / from, plan on, stop from, thank somebody for, think of / about, use for, worry about*

-ing form as subject

You can use the *-ing form* of a verb as the subject of the sentence:

***Reading** is useful for learning new words.*

adjective + *to* infinitive

You often use *to* + infinitive after an adjective:

*It's **fun to speak** in English with friends.*
