

COURSE GUIDE

# Automotive & Truck Technology

*Outcomes-focused Solutions*

*We offer innovative technologies and authoritative content for your upcoming courses. Our solutions are designed around learning outcomes that empower, engage, and help your learners achieve success in the classroom and in their chosen careers.*

EXPLORE THE

## Digital Difference

*Choose the digital resources that fit your course needs*

MindTap from Cengage Learning represents a new approach to a highly personalized, online learning experience. A fully online solution, MindTap combines all of a user's learning tools—readings, multimedia, activities and assessments—into a singular Learning Path that guides the user through the curriculum. Educators personalize the experience by customizing the presentation of these learning tools to their students, even seamlessly introducing their own content into the Learning Path.

Cengage Learning's CourseMate brings course concepts to life with interactive learning, study, and exam preparation tools that support the embedded, interactive eBook. Instructors can also track student engagement and performance.

A rich-media learning experience that challenges learners to master diagnostic and repair practices in 62 realistic scenarios spanning all systems areas.

The Online ASE Technician Test Preparation (TTP) Series offers three types of testing modes and remediation. TTP covers the automotive, medium/heavy duty truck, collision, and transit bus areas.

ChiltonPRO is a cost-effective electronic repair information system combining all of Chilton's famous repair information into one easy-to-use tool.

### Automotive Service Job Sheets for NATEF Task Mastery

Help your students master the skills they need to succeed in industry, with nearly 200 hands-on lab and shop activities correlated to NATEF tasks. Job sheets are available both online as well as within the printed text.

### Diesel Engine Videos

Engage your students with 57 new videos on topics that cover both the theory and servicing on modern diesel engines, fuel and engine management systems.

With online access to Cengage Learning's Instructor Resources that accompany many of our books, preparing for class and evaluating students has never been easier!

The Professional Technician Training Series offers online or CD-ROM based training in system-specific automotive and medium/heavy duty truck areas. Each course contains video, animation, and interactivity.

Engaging. Trackable. Affordable.

## The simple way to boost student interest and engagement

CourseMate brings concepts to life with web-based learning, study, and exam preparation tools that support your Cengage Learning textbook. Watch comprehension soar as CourseMate goes beyond the book to deliver what learners need!

### WHAT WILL YOU FIND?

- The **Engagement Tracker**, which checks the progress of your students, identifies those at risk, and uncovers concepts that are challenging for your class.
- An **integrated eBook** that allows students to take notes, highlight, search, and access book-specific embedded media.
- A **Student Learning Pathway**, customized to your adopted textbook, that integrates digital media.
- Engaging **quizzes, flashcards, and videos** to further drive interest.

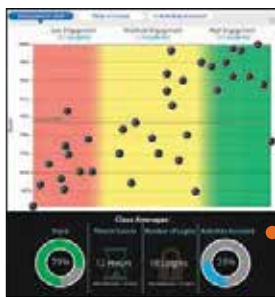

Instructors using CourseMate saw an 11% increase in homework submissions and a 14% decrease in low passes, fails, and incompletes.

(2010, O'Donnell & Associates)

## Tap into the personalized teaching experience

MindTap is a personalized teaching experience with relevant assignments that guide students to analyze, apply, and improve thinking, allowing you to measure skills and outcomes with ease.

### Promote Better Outcomes

Analytics and reports provide a snapshot of class progress, time in course, engagement and completion rates.

### Elevate Thinking

Relevant readings, multimedia, and activities are designed to take students up the levels of learning, from basic knowledge to analysis and application.

### Easily Set Your Course

Personalized teaching becomes yours through a Learning Path built with key student objectives and your syllabus in mind. Control what students see and when they see it.

*"We have seen an increase of at least one letter grade when we compare the performance of students who used MindTap with those who didn't."* — Scott Domowicz, Erie Institute of Technology
