

DIGITAL FULFILLMENT SERVICES

National Geographic Learning, a part of Cengage Learning, strives to ease the stress of the digital transformation you are facing on a day to day basis.

When you purchase one of our premier learning solutions, we offer three Digital Fulfillment Service options to fit your needs.

- **Enterprise Licensing**

Enterprise Licensing eliminates the need for a District or School to manage individual access codes for students to gain access to digital content. With the Enterprise License process instructors are able to provide one course key which will enable students access to the course content as well as rostering the student into their specific class.

- **NGL Sync**

NGL Sync rosters both teachers and students into their MindTap courses and allows for easy management of changes throughout the year through frequent uploads for a single instructor or hundreds within the district.

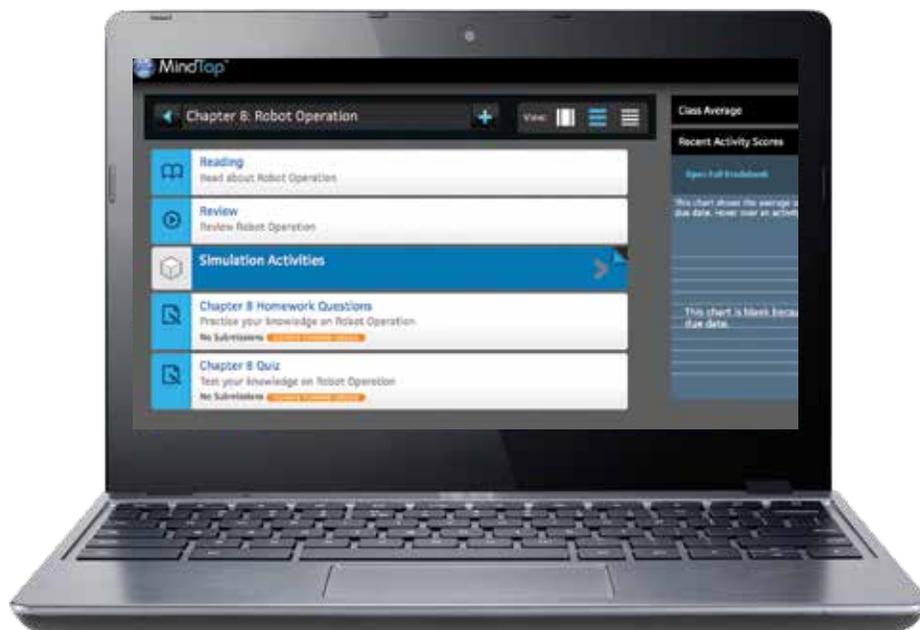

- **LMS Integration**

LMS Integration provides seamless access to our premier digital solutions through your LMS platform. The simplified registration experience gets both teachers and students up and running faster.

For more information regarding these services, please contact your local National Geographic Learning Sales Consultant

NGL.Cengage.com/repfinder

*LMS Integration is available with any LMS that supports IMS Basic LTI Open Standards. Enhanced features, including grade synchronization, are the result of active collaborations with our LMS partners.

Digital Fulfillment Service	Premier Digital Platforms Supported	Benefits
Enterprise Licensing	    	<ul style="list-style-type: none"> • No Access code management • Seat count tracking available • Auto notice sent to designated users when seats become low • District managed implementation
NGL Sync		<ul style="list-style-type: none"> • Teacher and students are registered through One Roster • Automatic Course creation • Accommodates for student mobility within the district • Dedicated digital course consultants provide assistance throughout rostering process
