

Arts Connection

Acquisition of key vocabulary Use Key Vocabulary to play a classroom version of *Pictionary*. Divide the class into two teams. Write the vocabulary words on cards. Give one person from each team a card. These two go to the board and silently draw pictures that define their words. The first team to guess their word wins a point.

Vocabulary Connection

Identify word origins Place students into small groups. **Say:** *You will use the Internet (or a dictionary) to research the origin and additional meanings of the Key Vocabulary.* Have the students record the information they find in a **Vocabulary Log**. Ask them to share the information they find with the class.
