You're already in Canvas. Your students are in Canvas. Now so are we.

We are excited to introduce a Canvas Shell that aligns with the *Stand Out* Student Book, pulling together resources into one central location. Your students can interact with other students, engage with the material, and submit assignments directly through your LMS.

Included in the Canvas Shell:

- *Stand Out* audio and video
- *Stand Out* Quizzes
- Projects
- Worksheets
- Discussion prompts
- Prompts for activities in the book
- Links for Companion Site and MyELT* (*requires MyELT access)

Canvas Shell requires students to have a Student Book (print or eBook) as all prompts rely directly on the Student Book.

Two ways to bring *Stand Out* Canvas Shells into your classroom:

Canvas Shell & Student Book

- Follows and aligns with the Student Book
- Provides a central location for discussions, assignments, and additional resources
- Perfect for making online or hybrid classrooms interactive
- Ideal for flipping the classroom

Canvas Shell & Student Book with MyELT Online Workbook

- Follows and aligns with the Student Book
- Provides a central location for discussions, assignments, and additional resources
- Perfect for making online or hybrid classrooms interactive
- MyELT online workbook adds additional content (e.g. reading, practice activities) to supplement Student Book
- MyELT online workbook can be used for homework or self-study
- Ideal for flipping the classroom
